

# Third International Workshop on Conformity Assessment

**Standards Council of Canada**  

---

**Conseil canadien des normes**

**Canada**

## The Relationship Between Regulatory Authorities and Accreditation Bodies

Pat Paladino

2007-12-10

Rio de Janeiro, Brazil

## Presentation Outline

- The Standards Council of Canada
- The Canadian Legislative System
- Conformity Assessment
- Conformity Assessment and Legislation
- Questions

Standards Council of Canada  
Conseil canadien des normes

# Standards Council of Canada

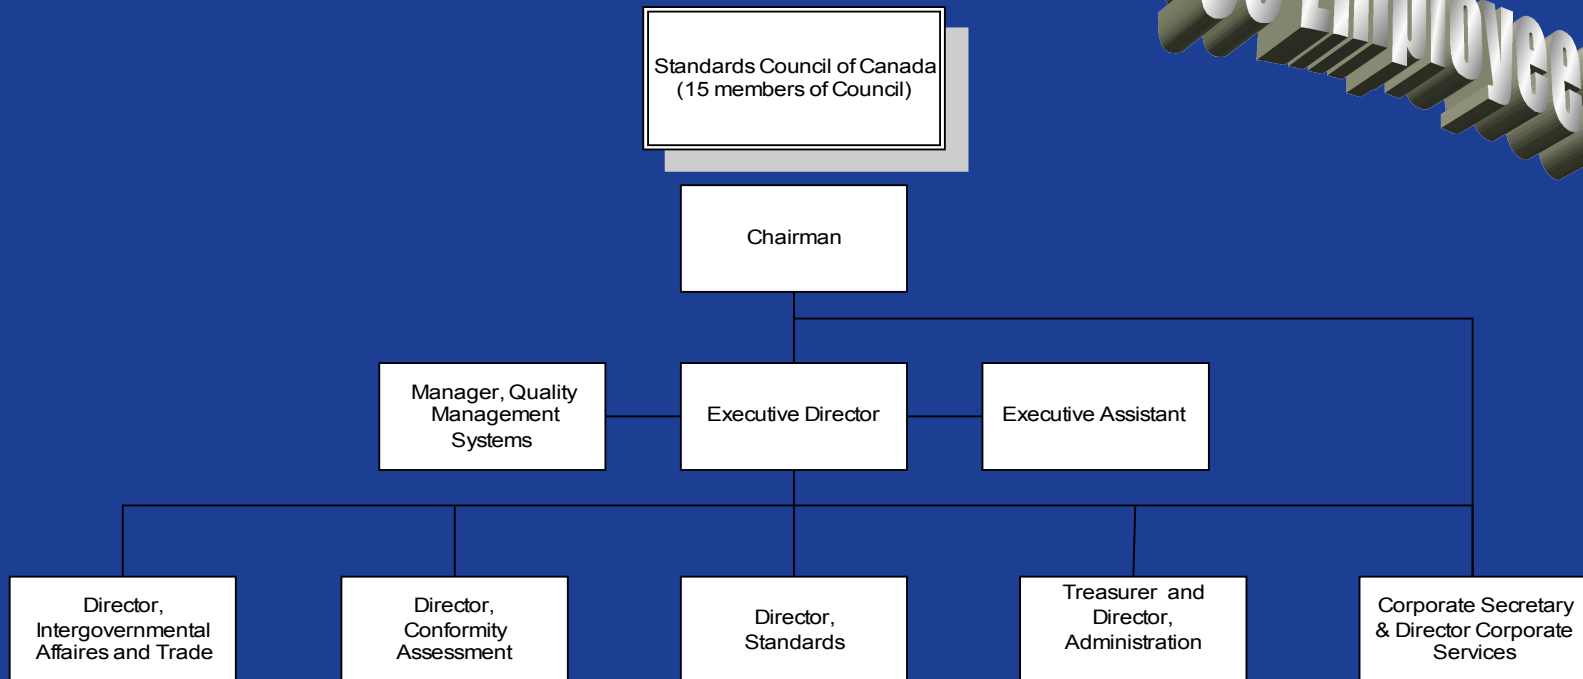

## Organization

- Federal Crown Corporation in accordance with the Standards Council of Canada Act
- Founded in 1970
- Reports to the Canadian Parliament via the Federal Minister of Industry

# Organizational Structure

90 Employees

## Role and Purpose

- Role:
  - National and international mandate
  - Canadian member to international/regional standardization organizations
  - Encourage the use of Standards
- Purpose:
  - To support Canadian competitiveness
  - To promote Canada's social and economic well-being both Nationally and Globally

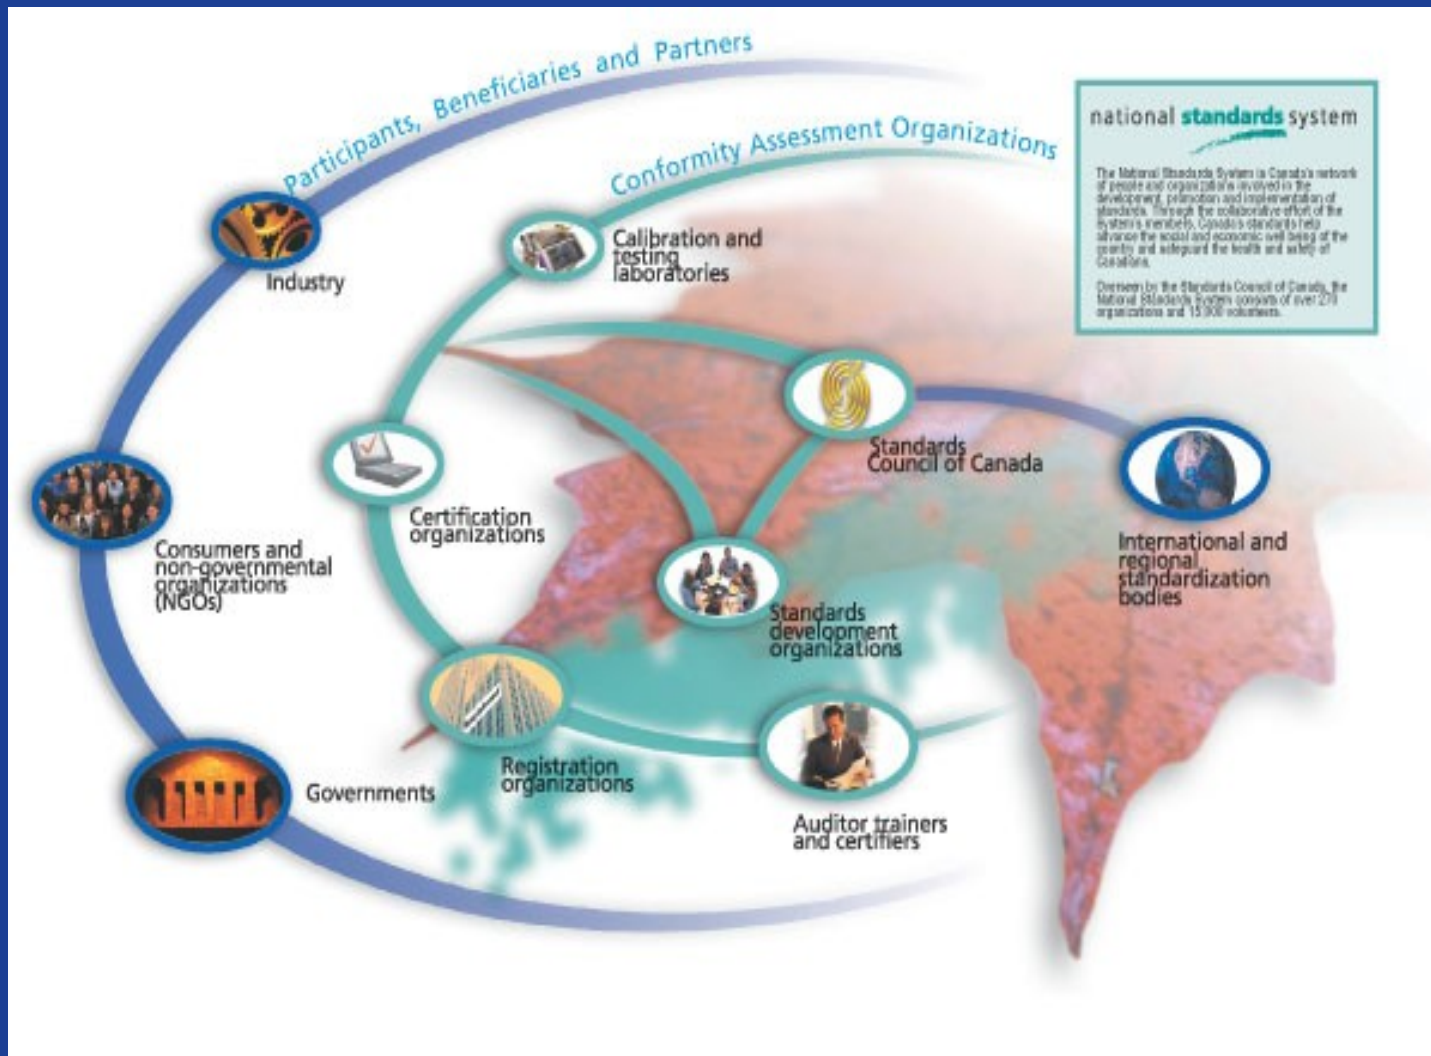

## People Supporting the System

- Over 15,000 members across Canada
- Approximately 450 standards-development committees

# National Standards System (NSS)

## The Vision - The Canadian Standards Strategy

- Blueprint for Canadian standardization activities
- To advance the social and economic well-being of Canadians

# The National Conformity Assessment Principles for Canada

- National focus: benefits of standards and conformity assessment
- Working together towards a better quality of life

## Accreditation Programs

- Standards development organizations
- Conformity assessment bodies

Standards Council of Canada  
Conseil canadien des normes

## Standards Development Organizations

## Conformity Assessment Organizations

- **Testing and calibration laboratories**
- **Product certification bodies**
- **Management system certification bodies**
- **Inspection bodies**
- **Personnel certification bodies**
- **Proficiency testing providers**
- **OECD – Good laboratory Practices (GLP)**

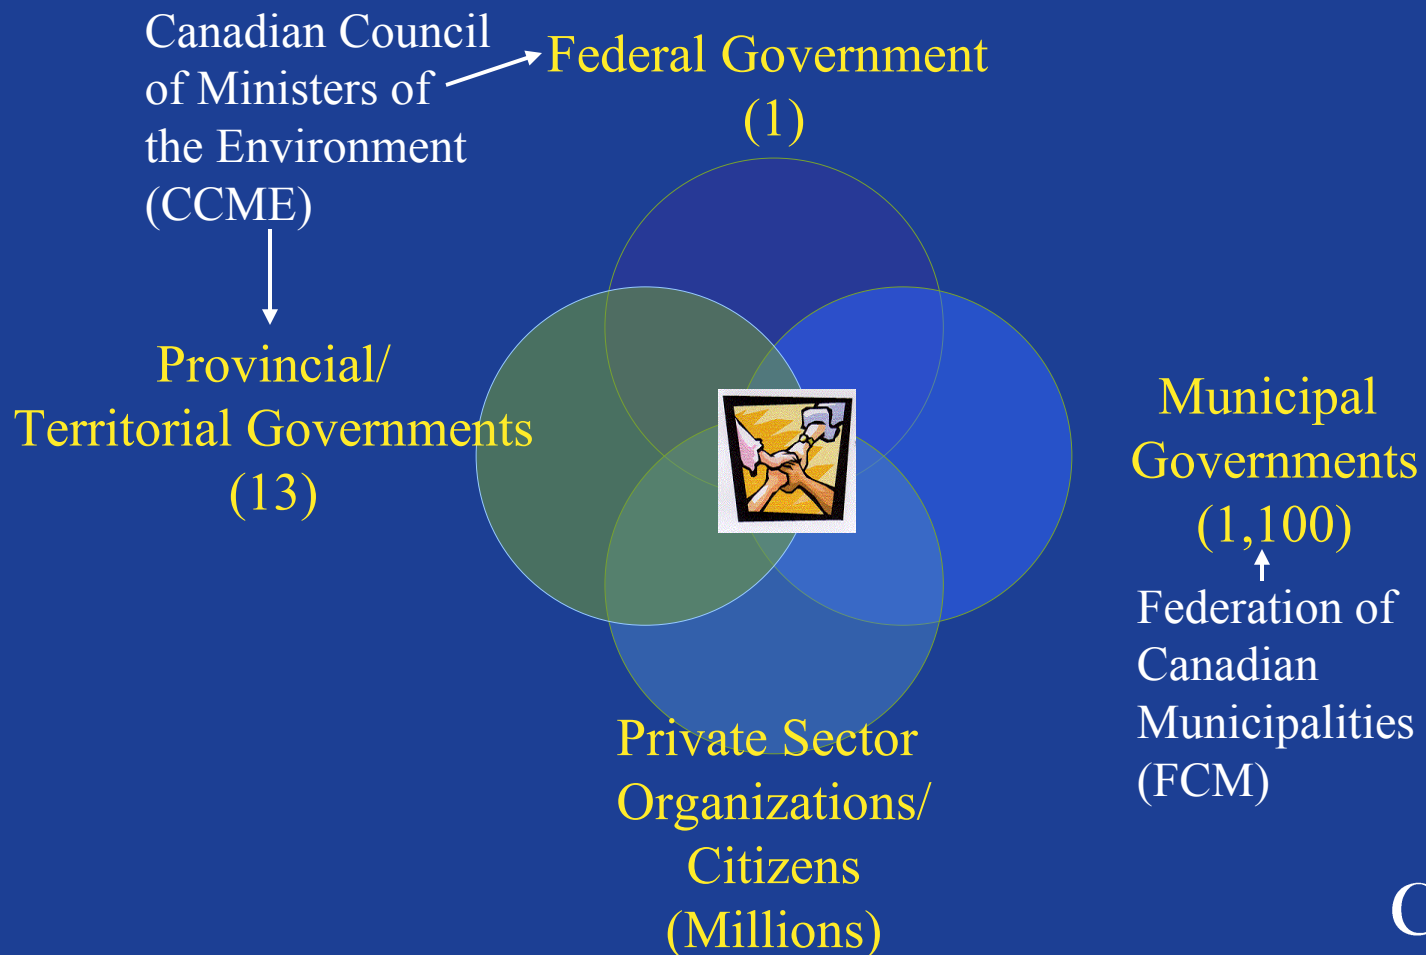

Standards Council of Canada  
Conseil canadien des normes

# Canada's Legislative System

## Inter-jurisdictional: Accountability and Cooperation Framework

## Government of Canada: New Key Policy

- *Government of Canada's Cabinet Directive on Streamlining Regulation* which requires Government Departments to make use of national and international standards and conformity assessment procedures when they fulfill intended policy objectives.
- **Cabinet Directive on Streamlining Regulation – <http://www.regulation.gc.ca>**

## Standards References in Federal Regulations

- Approximately 3,100 Federal regulations in Canada:
  - Approximately 300 standards that are developed by SCC accredited Standards Development Organizations are referenced
  - In addition, approximately 1,400 other industry and government standards are referenced which are developed by other organizations (e.g. industry associations, other countries standards development organizations to name a few)

## Example of Standards in Federal Regulations

- Minister responsible: *Minister of the Environment*
- Act: *Canadian Environmental Protection Act, 1999*
- Regulation: *Gasoline Regulations (C-15.31 – SOR/90-247)*
- Standard: *CAN/CGSB-3.- No. 19.5-2004: Methods of Testing Petroleum and Associate Products Determination of Lead and Automotive Gasoline (Atomic Absorption)*
- Standards developer: *Canada's General Standards Board (CGSB-PWGSC)*
- Legislative link: *[http://alert.scc.ca/std\\_e/std19116.html](http://alert.scc.ca/std_e/std19116.html)*

## Benefits of standards for use in legislation

- Reduction in barriers to trade
- Elimination of unnecessary regulatory burdens (incorporation of international best practices in domestic regulatory systems)
- Reduces time and costs for changes
- Enhanced consideration for the views of interested parties in standardization work
- Foster respect for intergovernmental and international agreements in regulatory practices
- Increased confidence of foreign investors and trade partners in the national industries

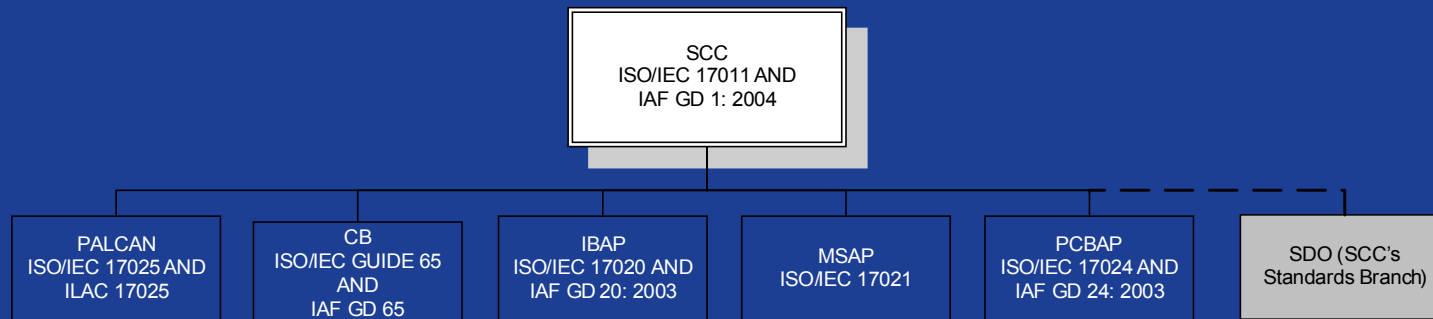

Standards Council of Canada  
Conseil canadien des normes

# Conformity Assessment

# Conformity Assessment Programs

1,000,000's of Annual Tests, Certifications, Registrations

## Market Drivers For Certification

- Industry policy
- Government policy
- Customers
- Non-Governmental Organization's
- International policy
- Procurement Policies

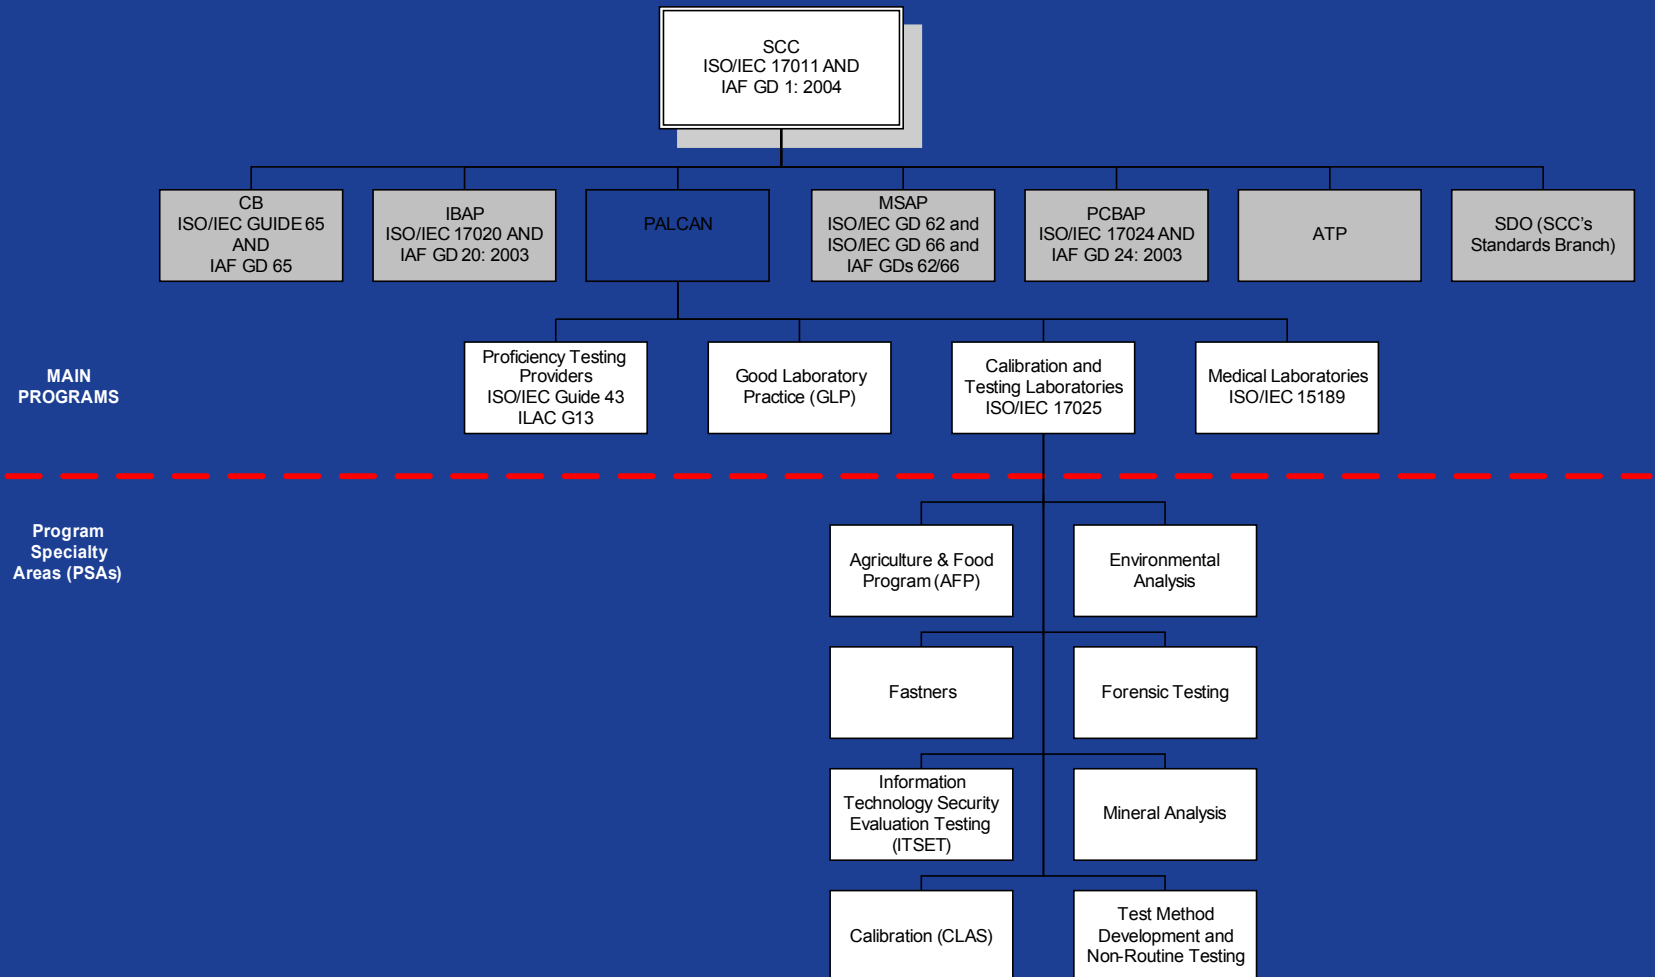

Standards Council of Canada  
Conseil canadien des normes

# Program for Accreditation of Laboratories – Canada (PALCAN)

# PALCAN

Program  
Specialty  
Areas (PSAs)

Standards Council of Canada  
Conseil canadien des normes

Example: Clean Water

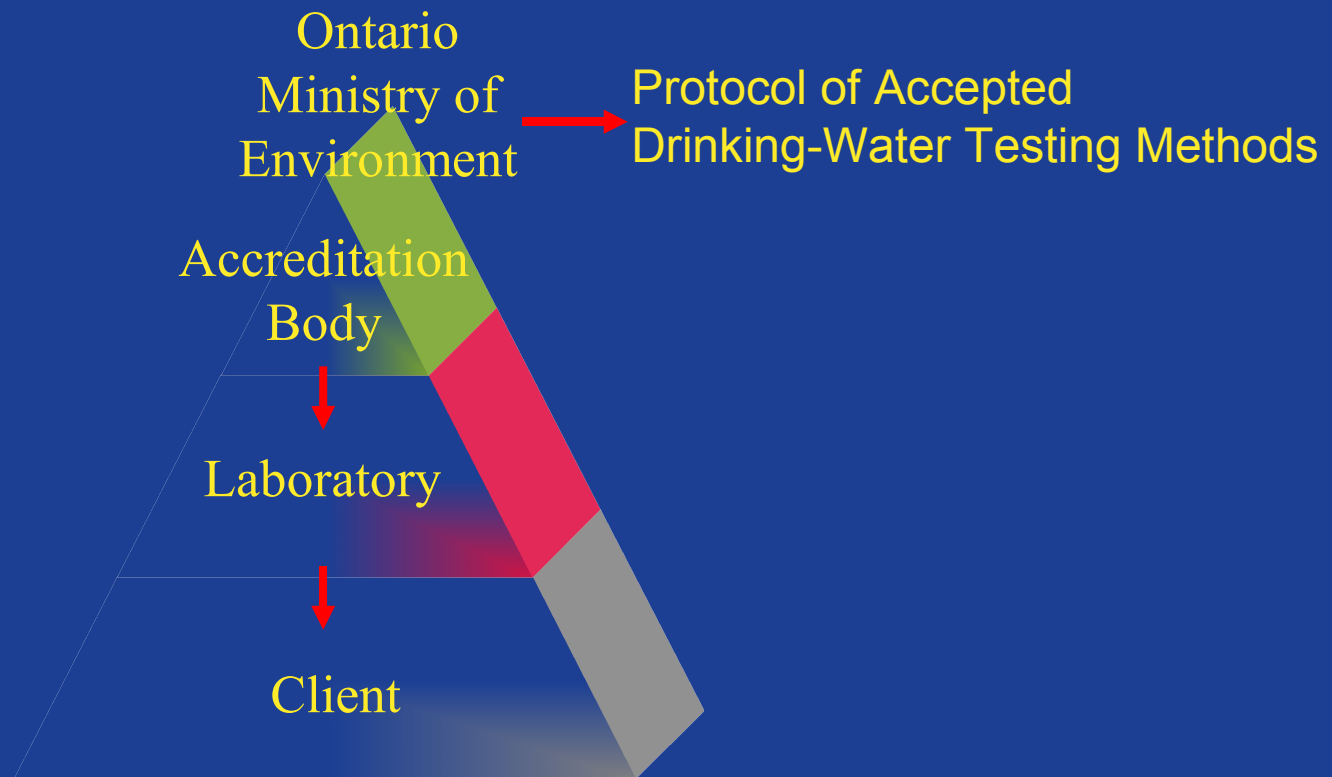

## Clean Water

- Environmental Incident – Driver of Change
- Government response
  - “. . . *All drinking water-testing should be performed only be accredited facilities . . .*”.
  - Ontario *Safe Drinking Water Act* (2002)
    - Use licensed and accredited laboratories
  - *Ontario Ministry of the Environment Memorandum of Understanding (MOU) with the Standards Council of Canada . . . focus on laboratory testing*

## Clean Water System in Ontario

## Clean Water: Why Accreditation?

- Laboratory benefits
  - Enhance expertise and efficiencies
- Client benefits
  - Confidence in testing results
- Regulatory benefits
  - Better information to protect public health and environment
- Public benefits
  - Building trust in the system overall
- Business benefits
  - New environmental technology and innovation for improving water treatment operations
  - Exportability of environmental technologies

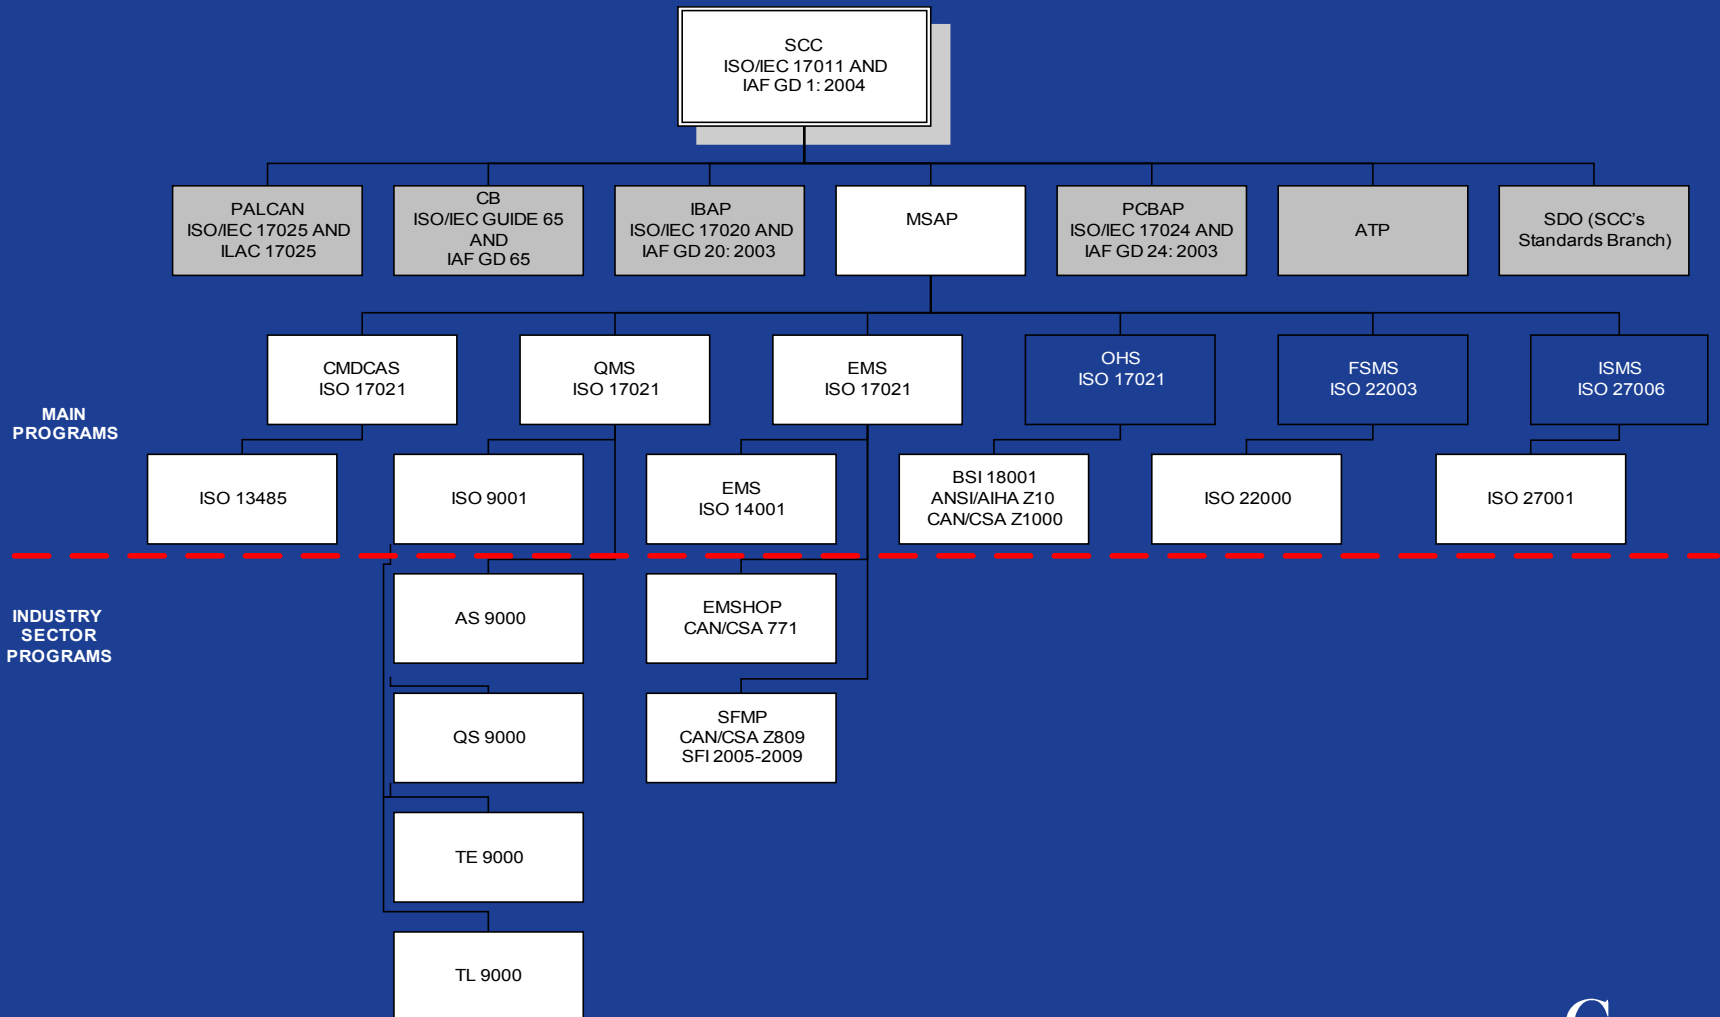

Standards Council of Canada  
Conseil canadien des normes

# Management Systems Accreditation Program

# MSAP

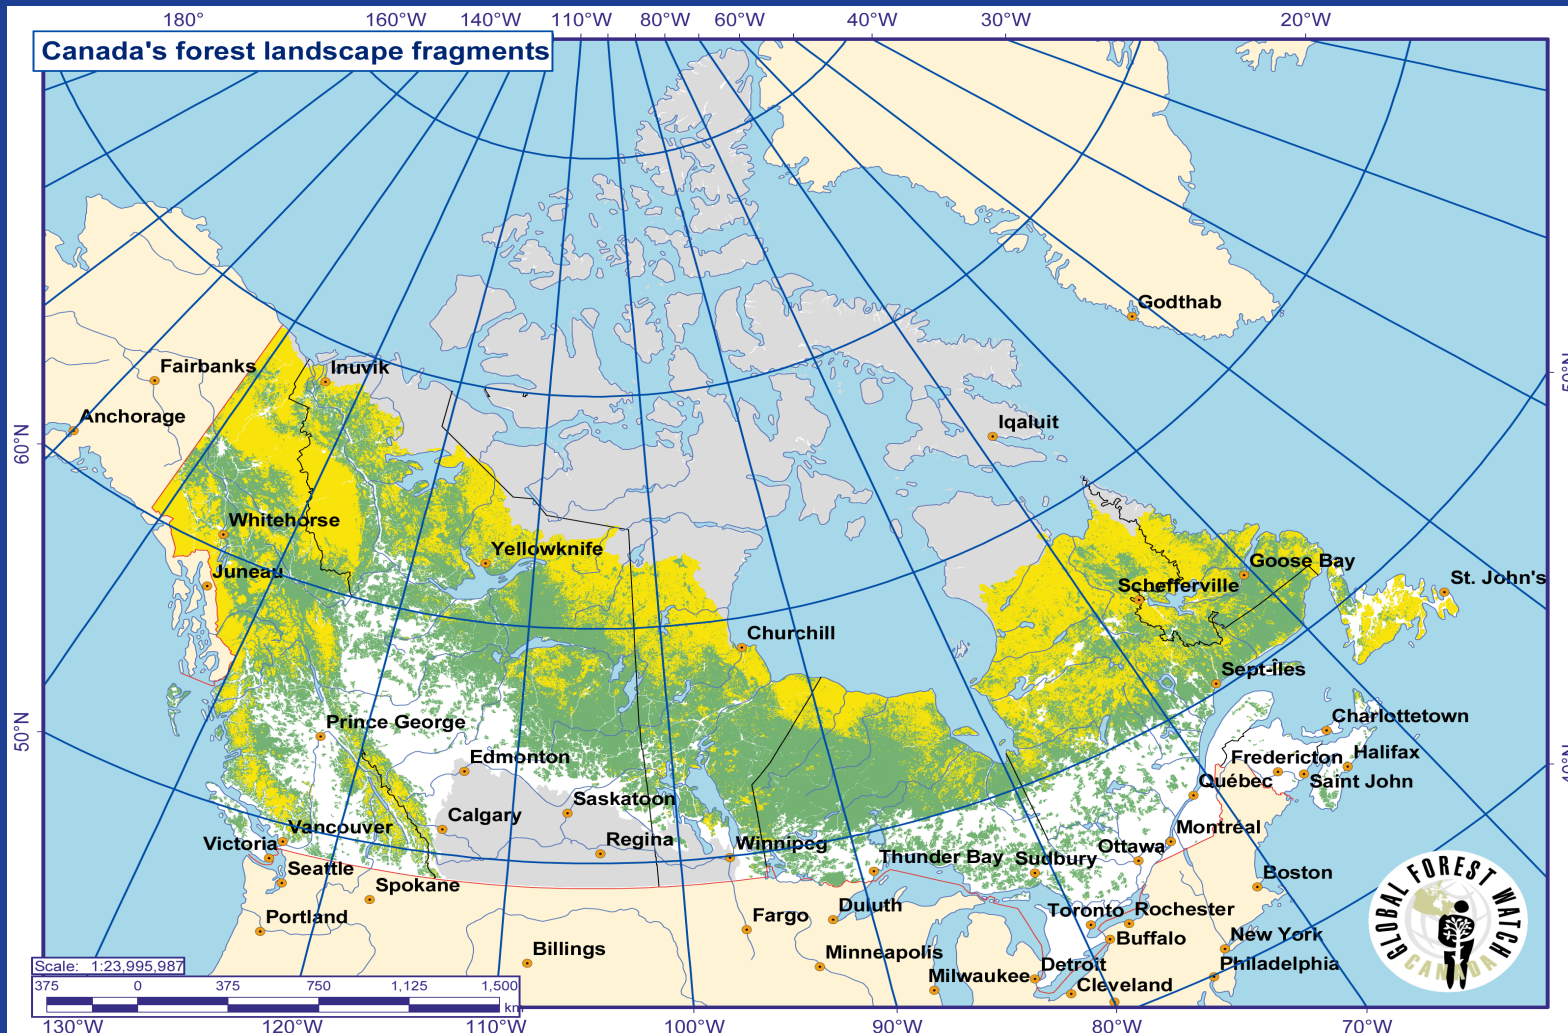

Standards Council of Canada  
Conseil canadien des normes

## Example: Sustainable Forest Management

## Canada's Sustainable Forest Management Accreditation Program

- National Sustainable Forest Management standard – (CAN/CSA Z809) (e.g. based on Canadian Council of Forest Ministers' (CCFM) framework of Criteria and Indicators – related to biological diversity, ecosystem condition, productivity, soil and water, aboriginal interests etc.)
- Agreement with Ontario Natural Resources
- Sustainable Forest Management Accreditation Program (1999)
- Canada is the global market leader – EMS/SFM certification
- Market access - signatory to the *Programme for the Endorsement of Forest Certification Schemes (PEFC)* Mutual Recognition Agreement (i.e. INMETRO is a member of this scheme as well)

Standards Council of Canada  
Conseil canadien des normes

# Example: Canadian Medical Devices Conformity Assessment System (CMDCAS)

## Canadian Medical Devices Assessment System

- CDMCAS – regulatory/conformity assessment program
- Health Canada and Standards Council of Canada – 2003
- Only Medical Device Program in the World Recognized by Regulator
- SCC only accreditation body delivering services on behalf of Health Canada/Government of Canada

Standards Council of Canada  
Conseil canadien des normes

# Certification Bodies Accreditation Program (CBAP)

## Program Scope

Product certification bodies certify a diverse range of products and services such as electrical equipment, plywood, hockey helmets, fuel burning appliances etc.

## Expanding the CB Program

### New Program - Chain of Custody of Forest Based Products

- Accreditations to PEFC Annex 4 International Standard for Chain of Custody for Forest Based Products
- Allows traceability of wood and wood materials from certified sustainable forests up the chain to processors, manufacturers, distributors and retailers of wood products.

### Organic Food

- Health and safety concerns about foods
- Claims made by growers and retailers
- Regulated sector that relies on certification

## Regulated Areas - Product Certification

### Electrical Safety

- CACES – Regulatory Authority Body for Electrical Safety in Canada
- Any CB delivering certifications must be accredited by SCC

### Gas Products (natural and propane)

- Inter-provincial Gas Advisory Council (IGAC)
- Any CB delivering certifications must be accredited by SCC
- Fuel burning appliances (e.g. furnaces, stoves)

### Plumbing

#### Regulatory Authorities Plumbing Products in Canada

- Provincial/Territorial Subcommittee on Plumbing Codes (PTSPC)
- Canadian Advisory Council on Plumbing (CACCP)

## Regulated Areas – Product Certification (cont)

### **Building Products**

- Provincial/Territorial Subcommittee on Building Codes (PTSBC)
- Building Code of Canada

### **Drinking Water**

- Federal/Provincial/Territorial Committee on Drinking Water
- Product certification related to: drinking water treatment system.

### **Energy Efficiency**

- Natural Resource Canada (NRCan) – Regulatory Authority and Product Marking (electrical and gas appliances)

Standards Council of Canada  
Conseil canadien des normes

# Inspection Bodies Accreditation Program (IBAP)

## Program Scope

Inspection of:

- Electrical Equipment
- Medical Gas Piping Systems
- Sprinkler Systems
- Electro-medical Equipment (dev.)

## Expanding the IB Program

- New areas such as Installation of Polyurethane Foam Insulation and Fire Alarm and Electrical systems inspections.

Standards Council of Canada  
Conseil canadien des normes

# Personnel Certification Body Accreditation Program (PCBAP)

## Program Scope

- Voluntary personnel certification organizations (e.g. Insulation Specialist, Auditors, Health and Safety Professionals, Scuba Divers, Financial Planners etc.) and Organizations with delegated authority (e.g. Medical Doctors, Dentists, Nurses, Engineers, Accountants etc.)

Standards Council of Canada  
Conseil canadien des normes

# Conformity Assessment and Legislation

## Governmental Arrangements

- Health Canada – *Canadian Medical Device Conformity Assessment System (CMDCAS)*
- Ontario Ministry of the Environment – *Drinking Water License Agreement*
- Pest Management Regulatory Agency – *Monitoring of facilities involved in testing of pest control products*
- Ontario Ministry of Natural Resources – *Sustainable Forest Management*
- Canadian Food Inspection Agency (CFIA) – *Technical Assessors*
- National Research Council (NRC) – *Calibration/Testing Laboratories*
- Department of Foreign Affairs and International Trade (DFAIT) – *World Trade Organization/North American Free Trade Agreement Inquiry Point*
- *Pari-Mutuel Agency – Facilities involved in detection of the uncontrolled drugs and medications in race horses*
